Attention: Mr Hugh McKenna – Operations Manager (Chemistry)

Dear Sir

Following successful correlation exercises with one of our in-house facilities, Pratt & Whitney Canada now
offers the following test methods:

- Test Code 8 - Lead C & S
- Test Code 9 - Quantitative Spectrographic analysis ICP/OES
- Test Code 10 - Gas Analysis (O, A, N)

[Controlling documents FC-22 & FC-23]

This is in addition to your existing approval for:

Test Code 10 - Gas Analysis (Hydrogen in Titanium)

FC sections of the P&WC Material Control Laboratory Manual establish controls for chemical and

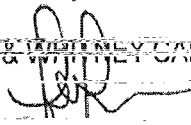

P&WC standards as determined by all periodic surveys submitted to Pratt & Whitney Canada regarding your product.

at the discretion of P&WC

of the dispersion of P&WC

Yours sincerely

PRATT & WHITNEY CANADA INC
